

## **Section B -- Retirement and Survivor Benefits**

This section presents data on retirement and survivor benefits provided by the Railroad Retirement Act. Regular retirement annuities are payable to employees with 10 or more years of railroad service who qualify on the basis of age or permanent disability. Age annuities may begin as early as age 60 for an employee with 30 or more years of service or at age 62 for one with 10 to 29 years of service. Disability annuities are payable at any age if the employee is permanently disabled for any regular employment. Employees with a current connection with the railroad industry may receive annuities based on disability for their regular occupation if they have attained age 60 and have at least 10 years of service, or at any age if they have at least 20 years of service.

Supplemental annuities are payable to employees age 65 or older with 25 or more years of railroad service who have a current connection with the railroad industry, and some service prior to October 1981, and whose regular annuities were awarded after June 30, 1966. Employees retiring after June 1974 with 30 or more years of service are eligible to receive supplemental annuities as early as age 60.

Annuities can be paid to spouses of retired 30-year employees when both the employee attains age 60 and the spouse either attains age 60 or has a child in care. In other cases, the spouse of a retired employee can receive an annuity when the employee attains age 62 and the spouse either attains age 62 or has a child in care. Annuities may, under certain conditions, also be payable to the divorced spouse of a retired employee.

Survivor annuities are payable to widow(er)s at age 60, or as early as age 50 if they are totally disabled. Under certain conditions, annuities are also payable to surviving children under age 18, ages 18-19 attending school full-time, or age 18 or over who became totally disabled before age 22, to widowed mothers (fathers) with young or disabled children in their care, and to dependent parents. Annuities may also, under certain conditions, be payable to remarried widow(er)s and divorced widow(er)s. A small number of survivor (option) annuities are being paid to widows under laws in effect before August 1946.

Annuities are calculated under two-tier formulas. The tier I portion of an employee's regular annuity is calculated under a formula similar to the one used for social security benefits. This benefit is based on the employee's taxable railroad compensation and social security-covered wages, and is reduced by the amount of any social security benefit received. The tier II portion is based on railroad service only and computed under separate formulas.

Spouse and survivor benefits are also computed according to tiers. A spouse tier I benefit equals one-half of the employee's tier I portion, before reduction for the employee's social security benefit, if any. The spouse's tier I amount is reduced by the amount of any social security benefit the spouse receives. The tier II amount is also based on the employee's tier II amount. In the case of a divorced spouse, only a tier I benefit is payable.

The survivor tier I amount is based on the deceased employee's combined railroad retirement and social security earnings and computed under the social security survivor benefit formulas. Survivor tier II amounts for awards since October 1986 are figured as a percentage of an employee tier II benefit -- 50 percent for a widow(er), 15 percent for a child, and 35 percent for a parent. The total tier II amount for a survivor family is subject to a minimum of 35 percent and a maximum of 80 percent of the employee tier II benefit. In the case of remarried widow(er)s, and divorced widow(er)s, only a tier I amount is payable.

In addition to their regular annuities, employees, spouses, and widow(er)s who were eligible for social security benefits and who met certain vesting requirements could be paid an additional annuity amount referred to as a vested dual benefit payment. This payment protects, in part, dual benefit equities previously established on the basis of credits acquired prior to 1975. Since August 1981, the award of vested dual benefit payments is restricted to vested employees with dual coverage on their own earnings.

Annuity amounts are subject to various types of reductions. Regular annuities to employees, spouses and widow(er)s are reduced if they begin before the normal retirement age, except for those payable to disabled employees, to certain employees retiring after June 1974 with 30 years of service and their spouses, or to spouses or widow(er)s with children in their care. Employee and spouse annuities are reduced separately in each portion, including the vested dual benefit payment, except for certain cases where the employee had 30 years of service. In these cases, which occur when the employee was first eligible after June 1984 and retires before age 62, only tier I is reduced. Widow(er)s' annuities

awarded since October 1986 are reduced in tier I and tier II. In most cases awarded before October 1986, only tier I is reduced, although tier II is computed on the basis of the reduced tier I. Other miscellaneous reductions in annuities include reductions for receipt of social security benefits and deductions caused by earnings in excess of the annual exempt amount.

Lump-sum death benefits are payable to certain survivors of employees with 10 or more years of railroad service and a current connection with the railroad industry. A lump-sum death benefit is payable at the time of an employee's death only if there are no survivors immediately eligible for monthly benefits. Otherwise, a deferred lump-sum benefit can be paid 12 months later if the total of monthly benefits paid the survivor during the year is less than the full lump-sum amount would have been.

Another lump-sum survivor benefit, the residual payment, can be made if no other benefits based at least in part on a deceased employee's railroad service will be payable in the future and the total of prior benefit payments is less than what the employee paid in railroad retirement taxes before 1975.

All current-payment status tables and award tables are based on universe data. In tables containing rounded figures, percentages are uniformly computed from unrounded figures; also, detailed figures may not add to totals shown because of rounding. Data for awards of employee and spouse annuities in 1998 (tables B8, B12 and B18) reflect the effects of recertifications through March 31, 1999.

Some of the more important terms used above and in the tables are discussed below:

1. An employee generally has a current connection if he(she) has 12 months of railroad service in the 30 months preceding retirement or death. An employee whose last 12 months of railroad service occurred prior to the 30 months before retirement or death may maintain a current connection if the employee did not perform any regular employment between the end of the 30-month period containing the last 12 months of railroad service and the month of retirement or death. A current connection may, in certain circumstances, be deemed for supplemental and survivor annuity purposes, if an employee had 25 years of service and was involuntarily terminated from rail service without fault on or after October 1, 1975.

2. Under the special guaranty, monthly benefits under the Railroad Retirement Act are equal to at least the amount the social security system would pay on the basis of combined railroad and social security credits, less amounts actually paid by the social security system. Retirement annuities computed under the special guaranty may include allowances for family members who could not receive benefits directly under the Railroad Retirement Act.
3. Immediate retirements refer to employee annuities which began in the calendar year in which the employee last worked for a railroad or in the following year. All others are classified as deferred.
4. Normal retirement age, also called full retirement age, was age 65 through calendar year 1999. Beginning with calendar year 2000, the normal retirement age will gradually increase from age 65 to age 67 over a 22-year period. For those born in 1938 (age 62 in 2000), the new retirement age is 65 and 2 months.
5. The average age of beneficiaries is computed as of the end of the fiscal year for those on the current-payment rolls on that date and as of the annuity beginning date for those awarded annuities during the year.

<sup>1</sup> Includes annuities to parents. On September 30, 1999, there were 66 parents' annuities in current-payment status averaging \$569.

<sup>2</sup> Numbers include annuities temporarily being paid at spouse annuity rates, pending final adjudication of survivor annuities.

NOTE.--Data exclude survivor (option) annuities. On September 30, 1999, there were 9 survivor (option) annuities in current-payment status averaging \$82.

<sup>1</sup> All retirements include 39,592 disability annuities now payable as age annuities, of which 30,518 were immediate and 9,074 deferred.

<sup>2</sup> Retirement is considered immediate if the annuity began in the calendar year of employee's last railroad service or in the following year; all others are considered deferred.

<sup>3</sup> Excludes interim widows' and survivor (option) annuities.

<sup>4</sup> Includes 4,065 annuities now payable as aged widow(er)s' annuities.

Table B6.--Regular employee annuities in current-payment status on September 30, 1999, and awarded in fiscal year 1999, by type and amount

NOTE.-- Only employers with 100 or more annuitants on the Board's payment rolls on December 31, 1998, are shown individually. Data for companies which ceased reporting service and compensation for their own employees before 1998 are combined with data for the currently reporting employer. Employers no longer covered by the Railroad Retirement Act are shown individually if they still had 100 or more retired employees on the Board's rolls on December 31, 1998. Grand total includes employees for whom a last railroad employer could not be identified. Railroad annuity amounts include regular and supplemental annuities.
